

Dip, Drop Done✓

Bowel cancer is preventable, treatable and beatable if detected early.

With a FOB Test you dip it in the loo, drop it in the post and you're done. It's that simple.

If you're 50 and over, you need to screen every 1 to 2 years
... it could save your life.

**Purchase your FOB Test online,
call 1800 555 494 or ask your pharmacist.**
