**"So home test for  
bowel cancer now!"**

**"G'day, Coxy here. After a long,  
hard battle with bowel cancer, I  
now know that..."**

- Testing is the **ONLY** way to detect the early signs of bowel cancer
- Every week, bowel cancer kills around 100 Australian men and women
- There's a quick and easy test you can do at home
- If I'd tested earlier, I could have prevented it.

**Don't put it off like I did."**
